Product Engineering

PUBLISHED MONTHLY

Index TO VOLUME XXV · JANUARY to DECEMBER 1954

McGraw-Hill Publishing Company, Inc., 330 West 42nd Street, New York 36, N. Y.

EDITORIALS

All answers are not solutions.....Jan. 127
No room for industrial complacency Jan. 228A
Will the NSPE take over?.....Feb. 127
We are not independent.....Mar. 127
Contrasts in prosperity endanger the free world .....Mar. 224A
Budgets for engineering.....Apr. 127
A 20-year record—the electric power companies' case for public confidence Apr. 224A
Horns blowing in the fog.....May 127
Standards without worth.....June 127
Financial aid to higher education—our colleges and universities face grave financial problems .....June 160A
Where to next?.....July 127
Financial aid to higher education—what business can do to help our colleges and universities .....July 192A
Start the ball rolling.....Aug. 127
Plus to minus and more.....Sept. 127
Alexander was not great.....Oct. 127
'The western miracle" continues—more automatic controls for industry Oct. 224A
Wonders to come.....Nov. 127
The reader—his mark.....Nov. 205
Next steps in atomic progress . . . a challenge to American industry...Nov. 160A
Grade schools and leadership.....Dec. 127

—A—

Above 300 F—fluoro-acrylic elastomers Nov. 161
Abrasive cutting for brittle materials Nov. 146
Accumulators for mobile equipment Oct. 138
Adhesives, metal to metal bonding with epoxy resin-based .....July 166
Adjustable speed drives, forced-torque electric .....Apr. 163
Adjustable speed drives.....May 132
Advances in reinforced plastics.....May 165
Airborne fire detection system (news) July 185
Air brake systems.....Nov. 134
Air compressor uses unusual valving arrangement, British .....Feb. 166
Aircraft industry readies new designs (news) .....Apr. 210
Aircraft navigation goes automatic (news) .....May 207
Air-electric relays link pneumatic and electric control systems.....Apr. 197
Air force starts human acceleration tests (news) .....Apr. 206
Air supply for tractor.....June 154
Alarm system, crane-tilt.....Dec. 156
Alloy steel castings.....May 129
Aluminum alloy designation system (news) .....Sept. 207
Aluminum alloy, effects of finishing on 75S-T6 .....Sept. 163
Aluminum hard coatings, mechanical properties .....Sept. 136
Aluminum, magnesium plaster castings Sept. 164
Aluminum replaces steel in truck....May 154
Aluminum sheet, nickel plated.....Dec. 167
Aluminum, ultrasonic soldering (abstract) .....Dec. 303
Angles for machining, equations for determining .....Dec. 211
Annealed gray iron castings for cost savings and better properties...May 142
Another engineering material—fibrous teflon .....Dec. 190
Appliance design, new trends in....Mar. 145
Arc-melting furnace aids search for new alloys (news) .....Dec. 198
Arc welding, a progress report on shielded-tungsten .....Feb. 170
Area of curved surfaces, calculating the Aug. 201
ASME to discuss engineering training (news) .....Aug. 198
ASTE membership climbs (news)..Apr. 211
Atomic batteries—a new source of power (news) .....Mar. 210
Atomic batteries: one more (news)..May 201
Atomic Energy Commission.....Apr. 128
Atomic energy, engineers wanted for Feb. 153
Auto test center, world's largest (news) Aug. 195
Automatic balancing of rotating masses July 175
Automatic control, mechanical components for .....Sept. 169
Automatic punch press for job shop duty (news) .....Mar. 214
Automatic spinning, design possibilities for .....Nov. 188
Automation and maintenance problems (abstract) .....July 292
Automobiles, 1954 (news).....Jan. 206
Automotive, auto makers in parts business .....June 122
Automotive, 1955 Chrysler line (news) Dec. 194
Automotive, GM shows turbine powered car (news) .....Mar. 212
Automotive, higher horsepower in new cars (news) .....Dec. 199
Automotive, mass-produced sports car Feb. 162
Automotive—new small car, Nash Metropolitan .....Aug. 148
Automotive thinking behind sewing machine design .....Nov. 138
Avoiding gear tooth interference...Nov. 207

—B—

Balanced design for case-hardened gears Mar. 202
Balancer redesign .....July 144
Balancing of rotating masses, automatic July 175
Ball piston pumps and motors (abstract) .....Apr. 282
Basic types of mechanical clutches...Jan. 192
Bearing load analysis using polar diagrams .....Feb. 209
Bearing metals, scoring characteristics of .....Nov. 171
Bearing seals .....Sept. 158
Bearing tester simulates freight car loads .....Nov. 144
Bearings, copper-lead and aluminum (abstract) .....Nov. 348
Bearings, powder metal bronze.....Apr. 182
Bearings, split ball.....July 197
Blackstone washer stays completely mechanical .....Mar. 160
Block letters on drawings.....Oct. 341
Comment .....Dec. 313
Blow-down wind tunnel, new (news) July 192
Bolted connections, torque vs stress May 158
Bonded carbon-graphite (abstract) Sept. 326
Bonding adhesives (abstract).....Oct. 329
Brazing for high strength alloys, dry hydrogen .....Aug. 156
Buckling and moment table for steel beams .....Oct. 211

—C—

Cable hoist uses old basket-weave principle .....Aug. 154
Calculating fundamental frequencies of machines on flexible structures..Apr. 190
Calculating the area of curved surfaces Aug. 201
Calculator gets transistorized (news) Dec. 198
Cam follower jump, when will a....July 156
Camera design, plastic moldings feature Dec. 152
Capacitance gage .....Sept. 152
Card sorter .....Jan. 150
Cast stainless alloys, latest data (news) Sept. 202
Cast steel, alloy additions (abstract) Oct. 331
Cast-weld construction of high-alloy steel parts .....Dec. 178
Casting cleaning speeded up (news) July 192
Casting costs, how quality control can affect .....Aug. 169
Casting per second, a (news).....Nov. 204
Casting processes, evaluation of....Mar. 139
Casting steps up steel production, continuous (news).....Nov. 198
Castings for cost savings and better properties, annealed gray iron..May 142
Catalog files, engineering.....June 322
Centralized lubrication for lift trucks June 152
Ceramic coating, high heat (news)..Sept. 202
Ceramic coatings, flexible (news)...Oct. 209
Chrysler unveils new line (news)....Dec. 194
Clad steel plate, designing and fabricating with .....June 176
Cleaner redesigned for operating ease, Landers, Frary and Clark.....Mar. 166
Clutches, basic types of mechanical Jan. 192
Clutches for electric drives, fluid...Aug. 174
Clutches for precise service, small mechanical .....Feb. 178
Coated metal parts made easy (news) July 184
Coatings for metals used at high temperatures, special .....Jan. 135
Cold forming process saves time and material .....June 186
Color carousel, automatic—latest concept in paint merchandising...May 156
Color television tubes.....Feb. 207
Color TV gets bigger (news).....June 191
Committee on engineering laws.....May 133
Compacting press design.....Sept. 142
Components in high production machinery (abstract) .....July 288
Compression springs, constant force Sept. 129
Compression springs, dynamic loading of Jan. 162
Compression terminals for aluminum conductors .....Sept. 160
Computer center, first (news).....Aug. 194
Computer, unitized digital electronic (news) .....Nov. 201
Computers, scale factors for analog Mar. 197
Constant force compression springs..Sept. 129
Constant torque power cams.....Feb. 180
Contour follower lathe.....Jan. 156

Control Engineering—new magazine (news) ..... Sept. 207
Controlling radiant heat ..... Oct. 174
Cooling electronic equipment ..... July 164
Copper and alpha brasses, deformation in ..... Jan. 180
Coupling of parallel shafts ..... Mar. 186
Crane-tilt alarm system ..... Dec. 156
Crash truck, fire fighting ..... May 150
Crawler tractor doubles up (news) ..... Nov. 202
Cu-Mn-Sn alloys look promising (abstract) ..... Mar. 293
Cushioning, vibration damping characteristics of glass fiber ..... Feb. 166
Cylindrical sections, locating shear center ..... June 137
Comment ..... Nov. 366

—D—

Damping capacity of materials ..... Nov. 164
Defense research management criticized (news) ..... Sept. 206
Deformation in copper and alpha brasses ..... Jan. 180
Demand for engineering grads, increased (news) ..... Aug. 198
Design limits for polyester-glass laminates ..... Aug. 161
Design possibilities for automatic spinning ..... Nov. 188
Design recommendations for removing heat from electronic equipment ..... July 164
Designing and fabricating with clad steel plate ..... June 176
Designing for production
pt. I—machining ..... Oct. 166
pt. II—retaining ..... Nov. 182
Dielectric materials, silicone ..... Feb. 187
Die sinker shows off German design ..... July 148
Drafting practices, simplified ..... May 161
Comment ..... Dec. 311
Drill head, self-feeding ..... Aug. 150
Dry hydrogen brazing for high strength alloys ..... Aug. 156
Dutch Institute promotes product design ..... Nov. 148
Duty cycle in selecting polyphase induction motors, importance of ..... Nov. 176
Dynamic loading of compression springs ..... Jan. 162
Dynamometer for fractional horsepower loads ..... Nov. 184

—E—

Effects of finishing on 75S-T6 aluminum alloy ..... Sept. 163
Effects of shock loadings ..... Dec. 171
Effects of size on gear design calculations ..... Apr. 129
Electric heater borrows jet-venturi principle ..... Mar. 149
Electric ingot process (news) ..... Aug. 199
Electro-hydraulic controls give German lathe split-second response ..... May 146
Electrolytic grinding (abstract) ..... June 287
Electrolytic molybdenum ..... Mar. 138
Electron tubes, reliability of (abstract) ..... June 292
Electron tubes take on new look (news) ..... Aug. 193
Electronic differential ..... May 154
Electronic guided missile (news) ..... May 204
Electronic photography (news) ..... Jan. 203
Electrospark machining (abstract) ..... June 288
Engine standardization pays off ..... July 178
Engineer shortage speeds automation ..... Aug. 168
Engineering analysis (abstract) ..... Jan. 274
Engineering catalog files ..... June 322
Engineering students to spend less time in major field (news) ..... Aug. 194
Engineers for atomic energy ..... Feb. 153
Epicyclic gear train of large reduction, formula for ..... Dec. 213
Epoxy plastics, flexible ..... Sept. 154
Epoxy resin-based adhesives, metal to metal bonding with ..... July 166
Equations for determining angles for machining ..... Dec. 211
Evaluation of casting processes ..... Mar. 139
Expansion—plastics industry theme (news) ..... May 202

—F—

Fabricating characteristics of stainless steels ..... Oct. 196
Fastener, quick opening ..... Dec. 156
Fastening sheet-metal parts by tongues, snaps or clinching ..... May 174
Fastenings, small die cast parts ..... Jan. 198
Fatigue testing fixtures ..... June 200
Feedback control conference gets high praise (news) ..... July 192
Felt, special treatments for wool ..... May 194
Felts from man-made fibers (news) ..... Oct. 208
Fiberglas bonded with metal (news) ..... Oct. 203
Fibrous teflon, another engineering material ..... Dec. 190
Filing system for catalogs ..... July 314
Film optical sensing device ..... Feb. 145
Fixed resistors, improvements in (abstract) ..... Nov. 352
Flame-plated tungsten carbide (abstract) ..... Aug. 304
Flexible epoxy plastics ..... Sept. 154
Fluid clutches for electric drives ..... Aug. 174
Fluid conversion factors for pressure drop calculations ..... June 197
Fluoro-acrylic elastomers ..... Nov. 161
Fluorocarbon plastics today ..... Oct. 168
Fluorocarbon plastics tomorrow ..... Oct. 168
Folding prints to standard letter size, methods of ..... July 160
Forced-torque drive systems ..... May 132
Forced-torque electric adjustable speed drives ..... Apr. 168
Formed sheet plastics—a fast growing field ..... June 129
Forming magnesium sheet, seven ways of ..... Feb. 135
Formula for epicyclic gear train of large reduction ..... Dec. 213
Free piston air compressor ..... Aug. 154
Freezer design, Amana ..... Mar. 146
Frequency analysis of hydraulic controls (abstract) ..... Jan. 277
Friction materials for brakes ..... July 134
Frictionless electromagnetic supports (abstract) ..... Nov. 360
Fuel injection pump, single cam ..... Dec. 150
Full phasing for one-way clutches ..... Dec. 184
Functional aspects of design ..... Feb. 129
Fused edge fiber cuts product assembly costs (news) ..... June 193

—G—

Gas engine injector, Italian ..... Feb. 160
Gas engine power package, picking a small ..... June 156
Gasoline meter, self-purging ..... Jan. 160
GE forms atomic power equipment branch (news) ..... Oct. 209
Gear design calculations, effect of size on ..... Apr. 129
Gear tooth interference, avoiding ..... Nov. 207
Gear train of large reduction, formula for epicyclic ..... Dec. 213
Gearing equations ..... May 198
Comment ..... July 308
Gears, balanced design for case-hardened ..... Mar. 202
Gears, intermittent spur ..... Feb. 175
German patent office catches up (news) ..... Mar. 215
Germanium—new frontier for high power rectification ..... Aug. 188
Germans form research group (news) ..... Mar. 209
Glass fiber cushioning, vibration damping characteristics of ..... Feb. 166
GM shows turbine powered car (news) ..... Mar. 212
Graphical determination of stresses defining unstable conditions ..... Feb. 213
Graphical method of designing thin-wall cylinders ..... Oct. 180
Graphical solution of a spiral gear problem ..... Jan. 211
Guided missile progress ..... Aug. 123

—H—

Hard coatings, mechanical properties of aluminum ..... Sept. 136
Hearing aid—transistor's first consumer product ..... Apr. 160
Heater combustion chamber ..... May 156
Heating element key to toaster design ..... Nov. 148
Heavy duty transmission combines two-in-one (news) ..... Apr. 211
Helical wire inserts, 19 applications of ..... Dec. 176
Hermetically sealed terminals, selection data for ..... June 178
High altitude testing at sea level (news) ..... July 190
High density shielding material (news) ..... Aug. 196
High pressure pneumatic circuits for aircraft ..... Apr. 162
High-pressure turbocharger ..... Apr. 150
High speed camera speeded up (news) ..... July 185
High temperatures, special coatings for metals at ..... Jan. 135
High-viscosity silicone fluids for mechanical applications ..... July 137
Higher hp. in new cars (news) ..... Dec. 199
Hot forming with glass lubricant (news) ..... Mar. 211
Hotpoint stresses plug-in design ..... Mar. 164
How quality control can affect casting costs ..... Aug. 169
How to keep hydraulic systems clean ..... Apr. 178
How to prepare technical reports ..... Oct. 154
How to select selenium rectifiers for high capacity applications ..... Feb. 192
How to simplify your rubber specifications ..... Jan. 142
How to specify a servo control system ..... Jan. 129
How to use thermistors ..... Apr. 200
Hydraulic accumulators ..... Oct. 138
Hydraulic controls, frequency analysis of (abstract) ..... Jan. 277
Hydraulic crane, industrial ..... Nov. 142
Hydraulic fluids, synthetic ..... Dec. 162
Hydraulic motors for automatic control ..... Nov. 129
Hydraulic motors, selecting rotary oil ..... Mar. 168
Hydraulic power transmission (abstract) ..... May 296
Hydraulic pump bearing loads ..... June 148
Hydraulic servo-valve ..... Sept. 146
Hydraulic systems clean, how to keep ..... Apr. 178
Hydraulic tank recovery vehicle ..... July 152
Hydraulic torquing machine ..... June 150
Hydraulically operated quadrant furnishes rocking motion ..... Apr. 152
Hydraulics forum (news) ..... July 192
Hydraulics in aerial scaffolds ..... Aug. 144
Hydrojet powers small craft (news) ..... Mar. 208

—I—

Impact extrusion ..... July 129
Impact extrusions ..... Apr. 173
Importance of duty cycle in selecting polyphase induction motors ..... Nov. 176
Induction potentiometer as an angular position indicator ..... Aug. 138
Industrial use of optical instruments ..... Jan. 168
Installation torque vs stress in standard AN bolts ..... May 158
Instrument show, largest (news) ..... Nov. 203
Integrators for computers and control systems ..... June 168
Interchangeable parts for typewriter ..... July 155
Intermittent spur gears ..... Feb. 175
Italian express (news) ..... Mar. 211

—J-K-L—

Jet car, first European ..... June 193
Jet helicopter ..... Feb. 206
Joining circular parts without fasteners ..... Apr. 176
Keeping products quiet ..... Dec. 140
Kelvinator redesigns sealed compressor unit ..... Mar. 162
Legal status of engineers ..... Jan. 123
Linkage design techniques ..... Dec. 133
Locating the shear center in thin closed sections ..... June 137
Comment ..... Nov. 366
Losing race for engineers (news) ..... Nov. 202
Low noise level d-c tachometer (abstract) ..... Feb. 269
Lubricating greases (abstract) ..... Oct. 332
Lubrication requirements of gears (abstract) ..... Feb. 266
Lubrication, solid film ..... Mar. 188

—M—

Magnesium alloys, high temperature (abstract) ..... Jan. 281
Magnesium corrosion resisting process (news) ..... Oct. 205
Magnesium for aircraft structures (abstract) ..... Feb. 275
Magnesium in jet aircraft (news) ..... June 192
Magnesium products, designing (abstract) ..... Mar. 290
Magnesium sheet, seven ways of forming ..... Feb. 135
Magnetic brake and clutch control, combined (abstract) ..... Dec. 305
Magnetic clutch patents (news) ..... Feb. 201
Magnetic clutches, stainless steel powder ..... Feb. 142
Magnetic memory goes commercial ..... Feb. 154
Measuring load torque in the fractional-horsepower range ..... Nov. 184
Mechanical components for automatic control ..... Sept. 169
Mechanical properties of aluminum hard coatings ..... Sept. 136
Mechanical timer, high speed ..... Oct. 158
Metal powder show (news) ..... Apr. 206
Metal to metal bonding with epoxy resin-based adhesives ..... July 166
Metals industry in for a change (news) ..... July 191
Methods of folding prints to standard letter size ..... July 160
Military research, change in ..... Mar. 123
Ministry of supply: Britain's research organization (news) ..... Apr. 208
Mobile power-pack ..... Oct. 152
Modular electronics continues to grow (news) ..... Mar. 213
Monitor guards engine bearings (news) ..... Oct. 208
Motor scooter designed for modern living, Italian ..... June 154
Movable and fixed core motion transducers ..... May 170

—N—

Nameplates in 3-D (abstract) ..... Apr. 276
Natural frequency conveyor ..... Aug. 152
Navy shock study (news) ..... Jan. 205
NBS radio research laboratory (news) ..... Aug. 194
Negator for counterbalancing force ..... July 154

Neoprene protective coatings (news) Sept. 206
Nickel plated aluminum sheet....Dec. 167
19 applications of helical wire inserts Dec. 176
Noise in composition resistors (abstract) May 292
Nomograph for weights of tubes....Dec. 215
Nonlinear techniques in design.....May 181
Non-rubbing seals for oil retention..Aug. 172
Numbering systems in the engineering department .....Jan. 194

—O—

One-way clutches, full phasing for..Dec. 184
Open-blade precision snap-action switches Oct. 189
Optical gratings in machine tool control (news) .....Apr. 207
Optical instruments, industrial use of Jan. 168
Organization of engineering sections for efficiency .....May 322

—P-Q—

Paint specifications for metal products Mar. 173
Patent counsel, using more effectively Mar. 281
Patent legislation .....Feb. 123
Perfection's new space heater has added safety controls .....Mar. 158
Perforated materials for functional uses Mar. 193
Philco designs two-way refrigerator door Mar. 167
Photoelastic models, simplified calibration of .....July 201
Picking a small gas engine power package .....June 156
Piezoelectric ceramics .....Oct. 161
Pinspotter, AMF .....June 142
Pitches for spur gears, table of base May 211
Plaster casting the light metals....Sept. 164
Plastic beads foam into polystyrene products (news) .....Apr. 205
Plastic coatings for large structures (news) .....July 192
Plastic moldings feature camera design Dec. 152
Plastic, new high temperature (news) Nov. 202
Plastic structures, polyethylene's potential in large.....Apr. 146
Plastics extrusions, R-F cured (news) Sept. 202
Plastics, formed sheet—a fast growing field .....June 129
Plastics get another chance.....July 122
Plastics machines, pre-dryer and preheater for (news).....Aug. 195
Plastics, sintered nylon.....Nov. 150
Plastics today, fluorocarbon.....Oct. 168
Plastics tomorrow, fluorocarbon....Oct. 168
Pneumatic and electric control systems, air-electric relays link.....Apr. 197
Pneumatic circuit design.....Nov. 134
Pneumatic circuits for aircraft, high pressure .....Apr. 162
Polyester-glass laminates, design limits for .....Aug. 161
Polyester stress corrosion (abstract) .May 286
Polyethylene's potential in large plastic structures .....Apr. 146
Polyphase induction motors, importance of duty cycle in selecting.....Nov. 176
Portable gas engines.....Mar. 129
Powder metal bronze bearings.....Apr. 182
Power cams, constant torque.....Feb. 180
Power rectifiers .....Feb. 192
Precision milling done chemically (news) June 328
Pre-coated copper for printed circuit manufacture .....May 193
Pre-dryer and pre-heater for plastics machines (news).....Aug. 195
Press fits for small shafts.....Nov. 158
Pressure drop calculations, fluid conversion factors for .....June 197
Pressure transducers .....Jan. 174
Print lettering .....Dec. 313
Producing teflon parts.....June 183
Progress report on shielded-tungsten arc welding .....Feb. 170
Proportioning helical springs for minimum weight .....Nov. 193
Protection against galvanic corrosion (abstract) .....Jan. 280
Pump diaphragm .....Jan. 154
Pump uses locked-rotor heat to reduce coolant viscosity .....Apr. 158
PVC and polyethylene (abstract)...Aug. 296
Quick opening fastener.....Dec. 156

—R—

Railroad air brake systems reveal fundamentals of pneumatic circuit design Nov. 134
Rare earths in low carbon steels (abstract) .....June 296
Reactor, college to build (news)...Mar. 269
Refrigerator-freezer unit goes completely automatic, Norge .....Mar. 155
Reinforced plastics, advances in....May 165
Reinforced plastics, improved flexural properties of (abstract).....Mar. 286
Research organization, Britain's (news) Apr. 208
Research studies arranged, new (news) Aug. 198
Reset timer for automatic control..Dec. 146
Resonance amplitudes in systems with a single degree of freedom.....Aug. 179
Retaining rings simplify recorder design Oct. 152
Rock crushing principle increases capacity .....July 154
Rolled splines (news).....July 187
Rubber-modified PVC (abstract)...Aug. 300
Rubber specifications, how to simplify your .....Jan. 142
Rubbing seals for oil retention.....Sept. 158

—S—

SAE meeting: horsepower and safety (news) .....Jan. 209
Scale factors for analog computers Mar. 197
Scoring characteristics of bearing metals Nov. 171
Scrap metal rescued (news).....June 191
Scale removal problems solved (news) Oct. 205
Scientific manpower wanted (news) Oct. 208
Seals for oil retention, non-rubbing Aug. 172
Selecting rotary oil-hydraulic motors Mar. 168
Selection data for hermetically sealed terminals .....June 178
Selection of soft solders and fluxes..June 161
Selective service policy on engineers (news) .....Aug. 198
Selenium rectifiers for high capacity applications, how to select.....Feb. 192
Servo control components.....Sept. 169
Servo control system, how to specify a Jan. 129
Servo control systems, six basic....July 179
Servo pressure transducers.....Jan. 174
Seven ways of forming magnesium sheet Feb. 135
Sewing machine design, automotive thinking behind .....Nov. 138
Shakers are getting bigger (news)..Sept. 203
Shell molded parts, tips on the design of (abstract) .....June 300
Shielded-tungsten arc welding, progress report on .....Feb. 170
Shock loadings, effects of.....Dec. 171
Shopsmith—an example of engineering ingenuity .....Oct. 142
Short-run production techniques...Nov. 194
Should current drafting practices be further simplified? .....May 161
Comment .....Dec. 311
Silicone dielectric materials.....Feb. 187
Silicone fluids for mechanical applications, high-viscosity .....July 137
Silicone irons, high (abstract).....Mar. 294
Silicone oils and greases.....Nov. 154
Silicone transistors for high temperature (news) .....Mar. 213
Simple harmonic motion chart.....July 205
Simplified calibration of photoelastic models .....July 201
Simplified drafting methods.....Aug. 320
Simplified drafting practice is a stimulating summary .....Oct. 228
Single cam fuel injection pump....Dec. 150
Single-curvature technique speeds body profiling .....Aug. 135
Sintered nylon plastics.....Nov. 150
Six basic servo control systems—how to improve their response.....July 179
Small car—Nash Metropolitan.....Aug. 148
Small mechanical clutches for precise service .....Feb. 178
Soap bubbles give better metals (news) July 187
Societies look for new home (news) Jan. 206
Society survey: how to hold engineers (news) .....Mar. 208
Sodium-graphite reactor, AEC and North American to build (news).....Sept. 202
Softener valve automatically operated by water pressure .....Mar. 150
Solders and fluxes, selection of soft June 161
Solid film lubrication.....Mar. 188
Solving gearing equations.....July 208
Sonance design .....Dec. 140
Sound test building, G.E. (news).....May 205
Special coatings for metals used at high temperatures .....Jan. 135
Special treatments for wool felt....May 194
Spinning-like process forms tough metals (news) .....Apr. 206
Spiral gear problem, graphical solution of a .....Jan. 211
Split ball bearings—and when to use them .....July 197
Spring design data.....Mar. 217
Springs, constant force compression Sept. 129
Springs, dynamic loading of compression Jan. 162
Springs for minimum weight, proportioning helical .....Nov. 192
Stainless applications, new alloy for (news) .....Apr. 211
Stainless steel powder magnetic clutches Feb. 142
Stainless steels, fabricating characteristics of .....Oct. 196
Stainless steels, high-chromium (abstract) .....Feb. 272
Standardization for production influences welder redesign .....Apr. 154
Starting electric motors, avoiding overheating when (abstract).....May 282
Steel tubing in heavy equipment, welded Jan. 186
Strength of cast alloys at 1200 F....June 207
Strength of titanium spotwelded joints July 193
Stress chart for thick cylinders.....Apr. 213
Stress recovery on creep, effect of (abstract) .....Apr. 272
Sun's energy harnessed (news).....June 190
Supercharging automotive power plants Oct. 129
Surface endurance limits of engineering materials (abstract) .....Dec. 308
Surface hardening of titanium (news) July 192
Survey reveals shortage of metallurgists (news) .....July 191
Switches, open-blade precision snap-action .....Oct. 189
Synthetic hydraulic fluids.....Dec. 183

—T—

Table of base pitches for spur gears May 211
Tappan stove uses baffle sandwich as heat deflector .....Mar. 157
Tax revisions help research (news) Mar. 214
Technical reports, how to prepare..Oct. 154
Teflon, fibrous .....Dec. 190
Teflon parts, producing.....June 183
Temperature cycling test made automatic .....Sept. 348
Tempered alloy steel plate (news)..Sept. 201
Terminals for aluminum conductors, compression .....Sept. 160
Tests check design of seaplane hull (news) .....July 191
Thermistor, which type .....Mar. 182
Thermistors, how to use.....Apr. 200
Thermocouple identifies metal (news) Apr. 207
Thermostatic controls .....May 176
Thick cylinders, stress chart for...Apr. 213
Thickness gages for metallic coatings (news) .....Oct. 202
Thin-wall cylinders, graphical design Oct. 180
3D in printed circuits (news).....May 200
3Mn complex—a new titanium alloy July 172
Titanium alloy, the 3Mn complex...July 172
Titanium and silver diaphragm control valve, king size (news).....May 205
Titanium bolts (news).....Mar. 209
Titanium fabrication research (news) Dec. 195
Titanium forgings .....Dec. 129

X-ray inspection tool (news).....Feb. 199
X-ray test and research (abstract)..Nov. 346
Zirconium .....Aug. 183

CLASSIFIED INDEX

DESIGN ANALYSIS AND CALCULATIONS

Automatic balancing of rotating masses .....July 175
Balanced design for case-hardened gears .....Mar. 202
Bearing load analysis using polar diagrams .....Feb. 209
Buckling and moment table for steel beams .....Oct. 211
Calculating fundamental frequencies of machines on flexible structures..Apr. 190
Calculating the area of curved surfaces .....Aug. 201
Constant force compression springs .....Sept. 129
Constant torque power cams.....Feb. 180
Damping capacity of materials....Nov. 164
Dynamic loading of compression springs .....Jan. 162
Effects of shock loadings.....Dec. 171
Effects of size on gear design calculations .....Apr. 129
Equations for determining angles for machining .....Dec. 211
Formula for epicyclic gear train of large reduction .....Dec. 213
Graphical determination of stresses defining unstable conditions.....Feb. 213
Graphical method of designing thin-wall cylinders .....Oct. 180
Graphical solution of a spiral gear problem .....Jan. 211
Linkage design techniques.....Dec. 133
Locating the shear center in thin closed sections .....June 137
Comment .....Nov. 366
Nonlinear techniques in design.....May 181
Press fits for small shafts.....Nov. 158
Resonance amplitudes in systems with a single degree of freedom.....Aug. 179
Simple harmonic motion chart.....July 205
Single-curvature technique speeds body profiling .....Aug. 135
Stress chart for thick cylinders....Apr. 213
Table of base pitches for spur gears .....May 211
Vibration damping characteristics of glass fiber cushioning.....Feb. 166
Vibration isolation of equipment with eccentric centers of gravity....Feb. 146
When will a cam follower jump....July 156
Whole number solutions of indeterminate equations for gearing.....May 198
Comment .....July 308

ELECTRIC MOTORS, PARTS AND CONTROLS

Air-electric relays link pneumatic and electric control systems.....Apr. 197
Automation and maintenance problems (abstract) .....July 292
Balancer redesign .....July 144
Card sorter .....Jan. 150
Compression terminals for aluminum conductors .....Sept. 160
Contour follower lathe.....Jan. 156
Forced-torque drive systems.....May 132
Forced-torque electric adjustable speed drives .....Apr. 168
Germanium — new frontier for high power rectification .....Aug. 188
How to select selenium rectifiers for high capacity applications .....Feb. 192
How to specify a servo control system .....Jan. 129
Importance of duty cycle in selecting polyphase induction motors....Nov. 176
Induction potentiometer as an angular position indicator .....Aug. 138
Magnetic memory goes commercial..Feb. 154
Measuring load torque in the fractional-horsepower range .....Nov. 184
Mechanical components for automatic control .....Sept. 169
Mobile power-pack .....Oct. 152
Open-blade precision snap-action switches .....Oct. 189
Pressure transducers .....Jan. 174
Selection data for hermetically sealed terminals .....June 178
Starting electric motors, avoiding overheating when (abstract).....May 282
Thermostatic controls .....May 176
Transducers for measuring displacement .....Dec. 158

ELECTRONIC UNITS AND CIRCUITS

Capacitance gage .....Sept. 152
Design recommendations for removing heat from electronic equipment..July 164
Electron tubes, reliability of (abstract) .....June 292
Electron tubes take on new look (news) .....Aug. 193
Electronic differential .....May 154
Electronic photography (news).....Jan. 203
Fixed resistors, improvements in (abstract) .....Nov. 352
How to use thermistors.....Apr. 200
Integrators for computers and control systems .....June 168
Noise in composition resistors (abstract) .....May 2[illegible]
Piezoelectric ceramics .....Oct. 161
Six basic servo control systems—how to improve their response.....July 179
3D in printed circuits (news).....May 200
Transistors for commercial markets (news) .....May 201
Transistor's first consumer product—hearing aid .....Apr. 160
Transistors in mass production (news) .....Oct. 204
Wheatstone bridge charts.....Sept. 209
Which type thermistor?.....Mar. 182

ENGINEERING DEPARTMENT OPERATION

Automatic punch press for job shop duty (news) .....Mar. 214
Block letters on drawings.....Oct. 341
Comment .....Dec. 313
Calculator gets transistorized (news) .....Dec. 198
Catalog files, engineering.....June 322
Filing system for catalogs.....July 314
Functional aspects of design.....Feb. 129
How to prepare technical reports..Oct. 154
Industrial use of optical instruments .....Jan. 168
Losing race for engineers (news)...Nov. 202
Methods of folding prints to standard letter size .....July 160
Numbering systems in the engineering department .....Jan. 194
Organization of engineering sections for efficiency .....May 322
Patent legislation .....Feb. 123
Print lettering .....Dec. 313
Scale factors for analog computers..Mar. 197
Scientific manpower wanted (news)..Oct. 208
Selective service policy on engineers (news) .....Aug. 198
Should current drafting practices be further simplified? .....May 181
Comment .....Dec. 311
Simplified drafting practice is a stimulating summary .....Oct. 338
Using your patent counsel more effectively .....Mar. 281
What a job-hunting engineer looks for (news) .....July 186

FASTENINGS

Fastening sheet-metal parts by tongues, snaps or clinching.....May 174
Installation torque vs stress in standard AN bolts .....May 158
23 ways to attach small die cast parts .....Jan. 198

FINISHES AND COATINGS

Ceramic coating, high heat (news)..Sept. 203
Controlling radiant heat.....Oct. 174
Mechanical properties of aluminum hard coatings .....Sept. 136
Neoprene coatings (news).....Sept. 206
Paint specifications for metal products .....Mar. 173
Special coatings for metals used at high temperatures .....Jan. 135
Thickness gages for metallic coatings (news) .....Oct. 202

HYDRAULIC AND PNEUMATIC DRIVES AND CONTROLS

Accumulators for mobile equipment .....Oct. 138
Air-electric relays link pneumatic and electric control systems.....Apr. 197
Air supply for tractor.....June 154
Automatic balancing of rotating masses .....July 175
Drill head, self-feeding.....Aug. 150
Electro-hydraulic controls give German lathe split-second response.....May 146
Fluid conversion factors for pressure drop calculations .....June 197
Frequency analysis of hydraulic controls (abstract) .....Jan. 277
High pressure pneumatic circuits for aircraft .....Apr. 162
High-viscosity silicone fluids for mechanical applications .....July 137
How to keep hydraulic systems clean .....Apr. 178
Hydraulic crane, industrial.....Nov. 142
Hydraulic motors for automatic control .....Nov. 129
Hydraulic power transmission (abstract) .....May 296
Hydraulic pump bearing loads....June 148
Hydraulic servo-valve .....Sept. 146
Hydraulic tank recovery vehicle....July 152
Hydraulic torquing machine.....June 150
Hydraulics in aerial scaffolds.....Aug. 144
Pump diaphragm .....Jan. 154
Railroad air brake systems reveal fundamentals of pneumatic circuit design .....Nov. 134
Selecting rotary oil-hydraulic motors .....Mar. 168
Synthetic hydraulic fluids.....Dec. 162
Torque-link for aircraft steering...July 151
Where dirt enters hydraulic systems (abstract) .....July 284

LUBRICATION

Centralized lubrication for lift trucks .....June 152
Lubricating greases (abstract).....Oct. 332
Lubrication requirments of gears (abstract) .....Feb. 266
Scoring characteristics of bearing metals .....Nov. 171
Silicone oils and greases.....Nov. 184
Solid film lubrication.....Mar. 188

MATERIALS—METALS FERROUS

Alloy steel castings.....May 129
Annealed gray iron castings for cost savings and better properties..May 142
Cast steel, alloy additions (abstract) Oct. 331
Electric ingot process (news).....Aug. 199
Evaluation of casting processes....Mar. 139
Fabricating characteristics of stainless steels .....Oct. 196
Perforated materials for functional uses Mar. 193
Rare earths in low carbon steels (abstract) .....June 296
Silicon irons, high (abstract).....Mar. 294
Strength of cast alloys at 1200 F..June 207
Stress recovery on creep, effect of (abstract) .....Apr. 273
Surface endurance limits of engineering materials (abstract) .....Dec. 368
Tempered alloy steel plate (news)..Sept. 201
Welded steel tubing in heavy equipment Jan. 186
Why parts fail.....Aug. 129

MATERIALS—METALS NONFERROUS

Aluminum alloy designation system (news) .....Sept. 207
Aluminum replaces steel in truck body May 154
Coated metal parts made easy (news) July 184
Cu-Mn-Sn alloys look promising (abstract) .....Mar. 293
Deformation in copper and alpha brasses Jan. 180
Effects of finishing on 75S-T6 aluminum alloy .....Sept. 163
Evaluation of casting processes....Mar. 139
Flame-plated tungsten carbide (abstract) Aug. 304
Impact extrusion .....July 129
Impact extrusions .....Apr. 173
Magnesium alloys, high temperature (abstract) .....Jan. 281
Magnesium corrosion resisting process (news) .....Oct. 205
Magnesium for aircraft structures (abstract) .....Feb. 275
Magnesium in jet aircraft (news)..June 192
Magnesium products, designing (abstract) .....Mar. 290
Mechanical properties of aluminum hard coatings .....Sept. 136
Nickel plated aluminum sheet.....Dec. 167
Perforated materials for functional uses Mar. 193
Plaster casting the light metals....Sept. 164
Seven ways of forming magnesium sheet Feb. 135
Stainless steels, high-chromium (abstract) .....Feb. 272
Strength of titanium spotwelded joints July 193
3Mn complex—a new titanium alloy July 172
Titanium fabrication research (news) Dec. 195
Titanium forgings .....Dec. 129
Titanium in planes, more.....June 175
Titanium, more (news).....Feb. 204
Ultrasonic soldering of aluminum (abstract) .....Dec. 303
Welding titanium molybdenum (abstract) .....Sept. 328
Why parts fail.....Aug. 129
Zirconium .....Aug. 183

MATERIALS—NON-METAL PLASTICS

Advances in reinforced plastics.....May 165
Another engineering material—fibrous teflon .....Dec. 190
Design limits for polyester-glass laminates .....Aug. 161
Expansion—plastics industry theme (news) .....May 202
Fiberglas bonded with metal (news) Oct. 203
Flexible epoxy plastics.....Sept. 154
Fluoro-acrylic elastomers .....Nov. 161
Fluorocarbon plastics today.....Oct. 168
Fluorocarbon plastics tomorrow....Oct. 168
Formed sheet plastics—a fast growing field .....June 129
Plastic beads foam into polystyrene products (news) .....Apr. 205
Plastic coatings for large structures (news) .....July 192
Plastic, high temperature (news)...Nov. 202
Plastic moldings feature camera design Dec. 152
Plastics extrusions, R-F cured (news) Sept. 202
Plastics get another chance.....July 123
Plastics machines, pre-dryer and preheater for (news).....Aug. 195
Polyester stress corrosion (abstract) May 288
Polyethylene's potential in large plastic structures .....Apr. 146
Producing teflon parts.....June 183
PVC and polyethylene (abstract)...Aug. 296
Reinforced plastics, improved flexural properties of (abstract).....Mar. 286
Rubber-modified PVC (abstract)...Aug. 300
Silicone dielectric materials.....Feb. 187
Sintered nylon plastics.....Nov. 150
Vibration damping characteristics of glass fiber cushioning.....Feb. 166
Vinyl film standards (news).....Feb. 200

MATERIALS—NON-METAL MISCELLANEOUS

Bonded carbon-graphite (abstract).Sept. 325
Ceramic coating, high heat (news).Sept. 203
Ceramic coatings, flexible (news)...Oct. 209
Felts from man-made fibers (news) Oct. 208
Friction materials for brakes.....July 134
How to simplify your rubber specifications .....Jan. 142
Special treatments for wool felt....May 194

MECHANICAL PARTS AND MECHANISMS

Avoiding gear tooth interference...Nov. 207
Balanced design for case-hardened gears Mar. 202
Basic types of mechanical clutches.Jan. 192
Bearings, copper-lead and aluminum (abstract) .....Nov. 348
Constant force compression springs.Sept. 119
Coupling of parallel shafts.....Mar. 181
Designing for production
pt. I—machining .....Oct. 166
pt. II—retaining .....Nov. 182
Dynamic loading of compression springs Jan. 162
Effects of size on gear design calculations .....Apr. 129
Frictionless electromagnetic supports (abstract) .....Nov. 360
Full phasing for one-way clutches..Dec. 184
Interchangeable parts for typewriter July 155
Intermittent spur gears.....Feb. 175
Magnetic brake and clutch control, combined (abstract) .....Dec. 305
Mechanical components for automatic control .....Sept. 169
Mechanical timer, high speed.....Oct. 158
Natural frequency conveyor.....Aug. 152
19 applications of helical wire inserts Dec. 176
Non-rubbing seals for oil retention..Aug. 172
Pinspotter, AMF .....June 142
Powder metal bronze bearings.....Apr. 182
Proportioning helical springs for minimum weight .....Nov. 193
Rubbing seals for oil retention.....Sept. 158
Scoring characteristics of bearing metals Nov. 171
Small mechanical clutches for precise service .....Feb. 179
Split ball bearings.....July 197
Spring design data.....Mar. 217
Stainless steel powder magnetic clutches Feb. 142
Supercharging automotive power plants Oct. 129
Table of base pitches for spur gears May 211
Turbine pumps .....July 170
When will a cam follower jump....July 156
Whole number solutions of indeterminate equations for gearing.....May 198
Comment .....July 308
Worm gearing—selection of materials, support of worm and gear shafts, housing and lubrication.....Jan. 146

POWER TRANSMISSION

Accumulators for mobile equipment Oct. 138
Fluid clutches for electric drives...Aug. 174
High-viscosity silicone fluids for mechanical applications .....July 137
Picking a small gas engine power package .....June 156
Shopsmith—an example of engineering ingenuity .....Oct. 142
Two-cycle engines for portable power Mar. 129

PRODUCT DESCRIPTIONS

Abrasive cutting for brittle materials Nov. 146
Air compressor uses unusual valving arrangement, British .....Feb. 160
Air supply for tractor.....June 154
Aluminum replaces steel in truck body May 154
Appliance design, new trends in....Mar. 145
Automotive, mass-produced sports car Feb. 162
Automotive thinking behind sewing machine design .....Nov. 138
Balancer redesign .....July 144
Bearing tester simulates freight car loads .....Nov. 144
Blackstone washer stays completely mechanical .....Mar. 160
Cable hoist uses old basket-weave principle .....Aug. 154
Capacitance gage .....Sept. 152
Card sorter .....Jan. 150
Centralized lubrication for lift trucks June 152
Cleaner redesigned for operating ease, Landers, Frary and Clark.....Mar. 166
Color carousel, automatic—latest concept in paint merchandising.....May 156
Compacting press design.....Sept. 142
Components in high production machinery (abstract) .....July 288
Contour follower lathe.....Jan. 156
Crane-tilt alarm system.....Dec. 156
Crash truck, fire fighting.....May 150
Crawler tractor doubles up (news)..Nov. 202
Die sinker shows off German design July 148
Drill head, self-feeding.....Aug. 150
Dutch Institute promotes design....Nov. 148
Electric heater borrows jet-venturi principle .....Mar. 149
Electro-hydraulic controls give German lathe split-second response.....May 146
Electronic differential .....May 154
Free piston air compressor.....Aug. 154
Freezer design, Amana.....Mar. 146
Gas engine injector, Italian.....Feb. 160
Gasoline meter, self-purging.....Jan. 160
Hearing aid—transistor's first consumer product .....Apr. 160
Heater combustion chamber.....May 156
Heating element key to toaster design Nov. 148
High-pressure turbocharger .....Apr. 150
Higher horsepower in new cars (news) .....Dec. 199
Hotpoint stresses plug-in design....Mar. 164
Hydraulic crane, industrial.....Nov. 142
Hydraulic pump bearing loads.....June 148
Hydraulic servo-valve .....Sept. 146
Hydraulic tank recovery vehicle....July 152
Hydraulic torquing machine.....June 150
Hydraulically-operated quadrant furnishes adjustable rocking motion Apr. 153
Hydraulics in aerial scaffolds.....Aug. 144
Interchangeable parts for typewriter July 155
Kelvinator redesigns sealed compressor unit .....Mar. 162
Magnetic memory goes commercial Feb. 154
Mobile power-pack .....Oct. 152
Motor scooter designed for modern living, Italian .....June 154
Natural frequency conveyor.....Aug. 152
Negator for counterbalancing force July 154
Perfection's new space heater has added safety controls .....Mar. 158
Philco designs two-way refrigerator door Mar. 167
Pinspotter, AMF .....June 142
Plastic moldings feature camera design Dec. 152
Pump diaphragm .....Jan. 154
Pump uses locked-rotor heat to reduce coolant viscosity .....Apr. 158
Quick opening fastener.....Dec. 156
Refrigerator-freezer unit goes completely automatic, Norge .....Mar. 155
Reset timer for automatic control..Dec. 146
Retaining rings simplify recorder design Oct. 152
Rock crushing principle increases capacity .....July 154
Shopsmith—an example of engineering ingenuity .....Oct. 142
Single cam fuel injection pump....Dec. 150
Small car—Nash Metropolitan.....Aug. 148
Softener valve automatically operated by water pressure .....Mar. 160
Standardization for production influences welder redesign .....Apr. 154
Tappan stove uses baffle-sandwich as heat deflector .....Mar. 157
Thermocouple identifies metal (news) Apr. 207
Thickness gages for metallic coatings (news) .....Oct. 202
Torque-link for aircraft steering....July 151
Turbo-compound engine design....Sept. 150
Valve prevents pipeline surges.....May 157
Washer and dryer redesigned, Laundromat .....Mar. 152
Welder designed for production....Oct. 150
Welding trolley redesign.....Sept. 148
Westinghouse ranges adopt electronics Mar. 154

PRODUCTION PROCESSES

Automotive thinking behind sewing machine design ..... Nov. 138
Bonding adhesives (abstract) ..... Oct. 329
Cast-weld construction of high-alloy steel parts ..... Dec. 178
Casting steps up steel production, continuous (news) ..... Nov. 198
Cold forming process saves time and material ..... June 186
Design possibilities for automatic spinning ..... Nov. 188
Designing and fabricating with clad steel plate ..... June 176
Designing for production
pt. I—machining ..... Oct. 166
pt. II—retaining ..... Nov. 182
Dry hydrogen brazing for high strength alloys ..... Aug. 156
Electrolytic grinding (abstract) ..... June 287
Electrospark machining (abstract) ..... June 288
Evaluation of casting processes ..... Mar. 139
Fabricating characteristics of stainless steels ..... Oct. 196
Formed sheet plastics—a fast growing field ..... June 129
Impact extrusion ..... July 129
Joining circular parts without fasteners ..... Apr. 176
Metal to metal bonding with epoxy resin-based adhesives ..... July 166
Plaster casting the light metals ..... Sept. 164
Pre-coated copper for printed circuit manufacture ..... May 193
Producing teflon parts ..... June 183
Progress report on shielded-tungsten arc welding ..... Feb. 170
Selection of soft solders and fluxes ..... June 161
Seven ways of forming magnesium sheet ..... Feb. 135
Shell molded parts, tips on the design of (abstract) ..... June 300
Short-run production techniques ..... Nov. 194
Strength of titanium spotwelded joints ..... July 193
Titanium forgings ..... Dec. 129
Ultrasonic soldering of aluminum (abstract) ..... Dec. 303
Welded steel tubing in heavy equipment ..... Jan. 186
Welding titanium molybdenum (abstract) ..... Sept. 328
Welding trolley redesign ..... Sept. 148

REFERENCE BOOK SHEETS

Avoiding gear tooth interference ..... Nov. 207

BURGESS, Charles O.—Annealed gray iron castings for cost savings and better properties ..... May 142

CAMPBELL, H. A.—How to prepare technical reports ..... Oct. 184
CARLSON, Harold C. R.—Spring design data ..... Mar. 217
CHRISTENSEN, D. F.—Silicone dielectric materials ..... Feb. 187
CLARK, R. U.—Selection data for hermetically sealed terminals ..... June 178
CLEVELAND, Rex—Welded steel tubing in heavy equipment ..... Jan. 186
COLEMAN, Dr. Howard S.—Industrial use of optical instruments ..... Jan. 168
COLVIN, Henry F. III—Six basic servo control systems—how to improve their response ..... July 179
CONKLIN, M.—Block letters on drawings ..... Oct. 341
Comment ..... Dec. 313
CONKLIN, Robert M.—Transducers for measuring displacement ..... Dec. 158
CONWAY, H. G.—Coupling of parallel shafts ..... Mar. 186

DAVIS, Sidney A.—Nonlinear techniques in design ..... May 181
Induction potentiometer as an angular position indicator ..... Aug. 138
Mechanical components for automatic control ..... Sept. 169
DEACON, Walter K.—Supercharging automotive power plants ..... Oct. 129
DEAN, Paul M. Jr.—Effects of size on gear design calculations ..... Apr. 129
deCEAULT, C. W.—Graphical determination of stresses defining unstable conditions ..... Feb. 213
DERKS, Richard J.—Bearing load analysis using polar diagrams ..... Feb. 209
DUGAN, W. J.—High-viscosity silicone fluids for mechanical applications ..... July 137
DURHAM, H. M.—Stress chart for thick cylinders ..... Apr. 213
DWORKIN, D.—Flexible epoxy plastics ..... Sept. 154

EDEN, J. J.—Graphical method of designing thin-wall cylinders ..... Oct. 180
ELAM, D. W.—Metal to metal bonding with epoxy resin-based adhesives ..... July 166
EMRICH, P. H.—How to keep hydraulic systems clean ..... Apr. 178

FARQUHAR, B. S.—Another engineering material—fibrous teflon ..... Dec. 190
FENTZLAFF, E. A.—Titanium forgings ..... Dec. 129
FLANAGAN, James H.—Simplified calibration of photoelastic models ..... July 201
FOSTER, Charles C.—Solving gearing equations ..... July 308
FOX, Milton R.—Selecting rotary oil-hydraulic motors ..... Mar. 168

GARDNER, George R.—Plaster casting the light metals ..... Sept. 164

GERARDI, J.—Should current drafting practices be further simplified? May 161
Comment ..... Dec. 311
GIBSON, G. J.—Cast-weld construction of high-alloy steel parts ..... Dec. 178
GLICK, Phillip—Powder metal bronze bearings ..... Apr. 182
GOVAN, W. L.—Engineering catalog files ..... June 322
Methods of folding prints to standard letter size ..... July 160
Filing system for catalogs ..... July 314
GREY, Jerry—Pressure transducers. Jan. 174
GRUBERG, Leon D.—Special treatments for wool felt ..... May 194
GUSTAFSON, Frank—Design limits for polyester-glass laminates ..... Aug. 161
GUTZWILLER, James E.—Worm gearing ..... Jan. 146

HALLIDAY, W. M.—Designing for production pt. I.—machining ..... Oct. 166
pt. II—retaining ..... Nov. 182
HALSTEAD, A. M.—Deformation in copper and alpha brasses ..... Jan. 180
HAMANN, C. E.—Germanium—new frontier for high power rectification Aug. 188
HAMLIN, Horace C.—Above 300 F—fluoro-acrylic elastomers ..... Nov. 161
HARMS, Kenneth G.—Sintered nylon plastics ..... Nov. 150
HARRIS, J. S.—Synthetic hydraulic fluids ..... Dec. 162
HOLLINGSWORTH, L. P.—Buckling and moment table for steel beams Oct. 211
HOLT, Marshall—Graphical determination of stresses defining unstable conditions ..... Feb. 213
HOWELL, John D.—Table of base pitches for spur gears ..... May 211
HUFF, H. A., Jr.—A progress report on shielded-tungsten arc welding. Feb. 170
HUTCHINSON, Foye P.—Perforated materials for functional uses. Mar. 193

JACKSON, E. G.—Silicon oils and greases ..... Nov. 154
JAMES, H. D.—How to select selenium rectifiers for high capacity applications ..... Feb. 192
JAMES, J. H.—Nickel plated aluminum sheet ..... Dec. 167
JOHNSON, Henry A.—Mechanical properties of aluminum hard coatings Sept. 136
JORCZAK, J. S.—Flexible epoxy plastics ..... Sept. 154
JUPA, J. A.—Fluorocarbon plastics tomorrow ..... Oct. 168

KAPINOS, John—Short-run production techniques ..... Nov. 194
KEELER, J. H.—Zirconium ..... Aug. 183
KELLEY, Floyd C.—Dry hydrogen brazing for high strength alloys. Aug. 156
KELLEY, G. M.—Single-curvature technique speeds body profiling. Aug. 135
KOPPEL, Arthur—Using the standards department as a consulting service Apr. 141
KOSKO, E.—Location of shear center (comment) ..... Nov. 266
KOTFILA, R. J.—The 3Mn complex—a new titanium alloy ..... July 172
KRUEGER, Robert G.—Two-cycle engines for portable power ..... Mar. 129
KUGLER, A. N.—A progress report on shielded tungsten arc welding. Feb. 170

LAMOREAUX, H. F.—Silicone oils and greases ..... Nov. 154
LANE, Joseph R.—Strength of cast alloys at 1200 F ..... June 207
LANGHAMMER, A. J.—Powder metal bronze bearings ..... Apr. 182
LARRI, G.—Automatic balancing of rotating masses ..... July 175
LAVEEN, Roland N.—How quality control can affect casting costs. Aug. 169
LECHTENBERG, Leo—Picking a small gas engine power package. June 156
LEE, Henry—Fluorocarbon plastics today ..... Oct. 168
LEEDY, R. M.—Controlling radiant heat Oct. 174
LICHTWITZ, Otto—Graphical solution of a spiral gear problem ..... Jan. 211
LUBIN, George—Advances in reinforced plastics ..... May 165

McCAUGHEY, J. M.—Deformation in copper and alpha brasses ..... Jan. 180
MacCRACKEN, Calvin D.—Using your patent counsel more effectively. Mar. 281
McLAUD, Eugene—Design limits for polyester-glass laminates ..... Aug. 161
MADDOCK, John—Balanced design for case-hardened gears ..... Mar. 202
MAIER, Karl W.—Dynamic loading of compression springs ..... Jan. 162
MALONEY, Robert E.—Organization of engineering sections for efficiency May 322
MARKUS, H.—Deformation in copper and alpha brasses ..... Jan. 180
MARLING, Paul E.—Paint specifications for metal products ..... Mar. 173
MARTIN, Maurice—Advances in reinforced plastics ..... May 165
MILLER, Robert Rulon—Producing teflon parts ..... June 182
MORGAN, Hal M.—Transducers for measuring displacement ..... Dec. 158
MORRISON, James A.—Fluid clutches for electric drives ..... Aug. 174
MURPHY, Vincent R.—Forced-torque electric adjustable speed drives. Apr. 168
Forced-torque drive systems. May 132
MURRAY, W. M.—Effects of shock loadings ..... Dec. 171
MUSIKANT, Sol—Vibration damping characteristics of glass fiber cushioning ..... Feb. 166
MUSTER, D. F.—Keeping products quiet ..... Dec. 140

NACHOD, Carl—Nomograph for weights of tubes ..... Dec. 215
NANFELDT, W. J.—Friction materials for brakes ..... July 134
NEUMANN, J. A.—Polyethylene's potential in large plastic structures. Apr. 146
NEWTON, Albert E.—Movable and fixed core motion transducers ..... May 170
NICKLAS, J. C.—Linkage design techniques ..... Dec. 133

O'HARA, W. W.—Air-electric relays link pneumatic and electric control systems ..... Apr. 197
OSBOURNE, Alan—Print lettering. Dec. 312

PAIGE, Henry—Nickel plated aluminum sheet ..... Dec. 167
PALMER, Charles E.—Short-run production techniques ..... Nov. 194
PARET, Richard E.—Fabricating characteristics of stainless steels. Oct. 196
PETERS, H. F.—Designing and fabricating with clad steel plate ..... June 176

QUICK, G. W.—Why parts fail. Aug. 129
QUINN, John M.—Alloy steel castings May 129

RAPPAPORT, Sigmund—Whole number solutions of indeterminate equations for gearing ..... May 198
Comment ..... July 308
RABINOWICZ, Ernest—Solid film lubrication ..... Mar. 188
REDSLOB, J.—Compression terminals for aluminum conductors ..... Sept. 160
RELPH, James M.—Using your patent counsel more effectively ..... Mar. 281
RESEK, Robert B.—Fluid conversion factors for pressure drop calculations ..... June 197
RESWICK, James B.—Scale factors for analog computers ..... Mar. 197
RING, Wayne A.—Wheatstone bridge charts ..... Sept. 209
ROACH, A. E.—Scoring characteristics of bearing metals ..... Nov. 171

ROSSWOG, J. G.—Importance of duty cycle in selecting polyphase induction motors ..... Nov. 176

SHELLEY, Edwin F.—High-speed mechanical timer ..... Oct. 158
SHULMAN, Arnold R.—Temperature cycling test made automatic. Sept. 248
SMITH, Paul L.—Piezoelectric ceramics Oct. 161
SMOLENSKY, George S.—Design recommendations for removing heat from electronic equipment ..... July 164
SOHL, H. C.—Selection of soft solders and fluxes ..... June 161
SOROKA, Walter W.—Calculating fundamental frequencies of machines on flexible structures ..... Apr. 190
SPAULDING, David C. Jr.—Non-rubbing seals for oil retention ..... Aug. 172
Rubbing seals for oil retention. Sept. 158
SPORCK, Claus L.—New cold forming process saves time and material June 186
SPOTTS, M. F.—Proportioning helical springs for minimum weight. Nov. 193
Equations for determining angles for machining ..... Dec. 211
Formula for epicyclic gear train of large reduction ..... Dec. 213
STEARNS, Frank H.—Split ball bearings—and when to use them. July 197
STEELE, Theodore K.—High-speed mechanical timer ..... Oct. 158
STEPHENS, W. T.—Accumulators for mobile equipment ..... Oct. 138
SULLY, A. H.—Special coatings for metals used at high temperatures Jan. 135
SVERDRUP, Nils M.—Simple harmonic motion chart ..... July 205
SWANSON, Ernest N.—Intermittent spur gears ..... Feb. 175

TABAKMAN, H. D.—Locating the shear center in thin closed sections. June 137
Comment ..... Nov. 266
TARBOX, John—Measuring load torque in the fractional-horsepower range Nov. 184
TATARINOV, Victor—Calculating the area of curved surfaces ..... Aug. 201
TAYLOR, LeRoy D.—Hydraulic motors for automatic control ..... Nov. 129
TAYLOR, Marvin—Basic types of mechanical clutches ..... Jan. 192
Small mechanical clutches for precise service ..... Feb. 178
TELFER, Craig—Simplified drafting practice is a stimulating summary Oct. 238
THUMIM, Carl—Constant torque power cams ..... Feb. 180
TINGQUIST, S. C.—Evaluation of casting processes ..... Mar. 139
TROENDLY, H. P.—Full phasing for one-way clutches ..... Dec. 184

ULRICH, S.—Numbering systems in the engineering department ..... Jan. 194

VIGLIONE, Joseph—Strength of titanium spotwelded joints ..... July 193

WADE, Bernard F.—Impact extrusions Apr. 173
WAYMAN, C. M.—The 3Mn complex—a new titanium alloy ..... July 172
WEISS, Alvin S.—Stainless steel powder magnetic clutches ..... Feb. 142
WENIG, Harold G.—High-speed mechanical timer ..... Oct. 158
WILHELM, Keith—A closer look at impact extrusion ..... July 129
WOLFE, Paul E.—19 applications of helical wire inserts ..... Dec. 176
WOLFORD, J. C.—Linkage design techniques ..... Dec. 133

YORGIADIS, Alexander—Damping capacity of materials ..... Nov. 164
YOUNG, Sheldon E.—Vibration isolation of equipment with eccentric centers of gravity ..... Feb. 146

The following two pages index articles appearing in the Annual Handbook of Product Design for 1955. These articles are indexed by title—complete subject reference can be obtained by referring to the Handbook.

EDITORIAL CONTENT

ANNUAL HANDBOOK OF PRODUCT DESIGN FOR 1955

SECTION A—GENERAL ENGINEERING

Automatic Solution of Mechanical Problems by E. L. Harder ..... A 2
Control of Cost of Research and Development Projects by H. J. Finison ..... A 9
Numbering Systems in the Engineering Department by S. Ulrich ..... A 16
Functional Aspects of Design by C. L. Bates ..... A 20
Break-Even Charts by W. A. Schuette ..... A 25
Developments to Watch ..... A 27
New Books 58

SECTION B—METALS AND ALLOYS

Effect of Carbon in Ferrous Alloys by Harry K. Ihrig and John T. Jarman ..... B 2
Fatigue Strength of Welded Butt Joints in Aluminum Alloy Plates by E. C. Hartmann, Marshall Holt and I. D. Eaton ..... B 6
Thermal Conductivity of Several Metals and Alloys up to 1100 F by Jerry E. Evans, Jr. ..... B 12
Charts for Allowable Compressive Stresses in Aluminum and Magnesium by B. E. Gatewood ..... B 16
Directory of Trade Names and Producers for Corrosion Resistant Metals and Alloys ..... B 19
High Temperature Data for Molybdenum and Molybdenum-Base Alloys by Howard C. Cross ..... B 26
Developments to Watch ..... B 28
New Books ..... A 38

SECTION C—NON-METALLIC MATERIALS AND FINISHES

Nickel and Chromium Electroplates for Aluminum by Henry Paige, Lt. J. H. James and F. S. Williams .. C 2
Indices for Chemical Resistant Plastics by Raymond B. Seymour ..... C 7
Vibration Damping Characteristics of Glass Fiber Cushioning by Sol Musikant ..... C 8
Cellular Rubber as an Engineering Material by G. R. Sprague and A. F. Sereque ..... C 11
Design Fundamentals for Molded Plastic Parts ..... C 16
Effect of Surface Shape on Distribution of Nickel Plate by D. M. Bigge ..... C 20
Design for Porcelain Enameling by E. E. Bryant ..... C 23
Developments to Watch ..... C 26
New Books ..... B 72

SECTION D—FABRICATION AND PRODUCTION PROCESSES

Seven Ways of Forming Magnesium Sheet ..... D 2
Shielded-Tungsten Arc Welding by H. A. Huff, Jr. and A. N. Kugler ..... D 8
Design Tips for Changing to Die Casting by H. K. Barton ..... D 12
Stud Welding . . . Ferrous and Nonferrous Metals by Robert C. Singleton ..... D 17
Shell Molding Stainless Steel by Walter H. Dunn and Robert E. Day ..... D 22
Developments to Watch ..... D 24
New Books ..... C 78

SECTION E—POWER TRANSMISSION

Torque Converters for Industrial Applications by M. J. Waclawek ..... E 2
Shaft Mounted Speed Reducers by Jackson Chung ..... E 7
Rubber Transmission Belts by Newell Perry ..... E 10
Mechanisms for Adjusting Tension of Belt Drives by Joseph H. Gepfert ..... E 12
Toothed Belt Drives by Richard Y. Case ..... E 14
Strength-Weight Ratios of Hollow Steel Shafts by Hans W. Smith ..... E 19
Mechanical and Electrical Variable Speed Transmissions ..... E 20
Basic Types of Variable Speed Friction Drives by Haim Murro ..... E 22
Basic Types of Mechanical Clutches by Marvin Taylor ..... E 24
Small Mechanical Clutches for Precise Service by Marvin Taylor ..... E 26
Chart for Determining Load and Life of Ball and Roller Bearings by LeRoy S. Harris ..... E 28
Developments to Watch ..... E 30
New Books ..... D 66

SECTION F—MECHANICAL PARTS AND DESIGN ANALYSIS

Mechanisms of Sleeve Bearing Failure by P. B. Burgess ..... F 2
Factors of Safety in Tolerance Specifications by Nelson G. Meagley ..... F 6
Tolerance Conversion Chart by Allen Johnson ..... F 11
Graphical Solution of a Spiral Gear Problem by Otto Lichtwitz ..... F 12
Calculating Design Data from Sample Gears by Alfred Bishop ..... F 15
Constant Torque Power Cams by Carl Thumim ..... F 16
Dynamics of Spring Motion by J. M. Ramrath ..... F 21
Calculator for G Loading by Joseph F. Sodaro ..... F 24
Jewel Bearings by Randall P. Cameron, Jr ..... F 25
Critical Speeds for End Supported Bare Shafts by L. Morgan Porter ..... F 28
Belleville Spring Nomogram by Herbert Steuer ..... F 29
Nomogram for Calculating Dimensions of Belleville Disk Springs ..... F 30a
Vibration Isolation of Equipment with Eccentric Centers of Gravity by Sheldon E. Young ..... F 31
Graphical Determination of Stresses Defining Unstable Conditions by Marshall Holt and C. W. deCeault ..... F 36
Design Charts for Rectangular Wire Helical Springs by Victor Tatarinov ..... F 37
Temperature Regulators by L. C. Blauvelt ..... F 40
Special Purpose Mechanisms by Sigmund Rappaport ..... F 42
Improving Fatigue Resistance of Bolted Joints by J. P. Vidosic ..... F 44
Bearing Load Analysis Using Polar Diagrams by Richard J. Derks ..... F 46
Developments to Watch ..... F 48
New Books ..... E 94

SECTION G—FASTENING AND JOINING

Fatigue and Static Tests of Flush-Riveted Joints by Darnley M. Howard and Frank C. Smith ..... G 2
Fundamentals of Selecting Locknuts by C. C. Feroni ..... G 9
American Standard for Small Solid Rivets ..... G 12
American Standard for Plain Washers ..... G 15
23 Ways to Attach Small Die Cast Parts by Hiram K. Barton ..... G 16
Adhesive Bonded Joints by William C. Broding ..... G 21
Screw-Type Latches for Doors and Covers by Fred Rogers ..... G 24
Bonded Rubber-to-Metal Joints by J. H. Gerstenmaier ..... G 27
Developments to Watch ..... G 28
New Books ..... F 84

SECTION H—MOTORS, ENGINES, AND CONTROLS

Overload Relays for Motor Protection by L. E. Daehler ..... H 2
Greases for Electric Motors by E. G. Jackson and E. R. Booser ..... H 10
Effect of Combustion Chamber Shape on Smoothness of Power by Harvey L. Mantey ..... H 16
Diesel Engine Performance Improvement by Experimentation by Herbert H. Black ..... H 20
Developments to Watch ..... H 24
New Books ..... G 68

SECTION—I—ELECTRICAL AND ELECTRONIC COMPONENTS

Movable-Anode Tube Gages Surface Roughness by Joseph B. Bidwell ..... I 1
A-c versus D-c Analog Computing System by Gareth M. Davidson ..... I 5
Selenium Rectifiers for High Capacity Application by H. D. James ..... I 9
Electro-Mechanical Position Transducers by L. Goldsmith ..... I 14
Large Rotating Amplifiers for Controlling Heavy Loads by Sidney A. Davis ..... I 19
Typical Industrial Use of Electric Heating Elements ..... I 24
Tubes for Industrial Inspection and Control by Ralph B. Immel ..... I 26
Capacitor Commutator Tachometers by F. K. Floyd and D. J. Cody ..... I 28
Developments to Watch ..... I 32
New Books ..... H 72

SECTION J—HYDRAULIC AND PNEUMATIC EQUIPMENT

Pressure Drop in Pneumatic Components and Systems by Milton M. Slawsky, Morton Lutzky and Albertus E. Schmidlin ..... J 2
Remote Control of Double Acting Pneumatic Cylinders ..... J 6
Basic Principles of Pneumatic Operators by Henry Milo ..... J 8
Pneumatic Controllers and Devices by W. I. Caldwell ..... J 10
J. I. C. Hydraulic Standards for Industrial Equipment ..... J 15
Hydraulic Servo Design for Maximum Performance by Julius Y. Kaplan and Stanley R. Sporn ..... J 26
Eight Gaskets for High Static Pressure by Andrew R. Freeman ..... J 30
Developments to Watch ..... J 34
New Books ..... I 120
